

## Pre-Construction Check List

### *Some things to consider before building...*

- Do you have 2' clearance around the shed and 10' above ground clearance?
- Don't forget to remove bushes, large rocks or any other protruding obstacles.
- Have you consulted your subdivision covenants?
- Do you have clear access to the shed location?
- Location of sprinkler heads and irrigation?

### *Will the size shed you ordered suit your needs?*

- Think of all the items that will go into it —
  - lawn furniture, mower, gardening tools,
  - ladders, pool supplies, bikes, etc.
- Be sure to order a wide enough door.
- Think ahead on your future purchases.

### *Other options and enhancements to consider for your shed:*

- Ramp
- Shelves
- Workbench
- Loft
- Heavy Duty Floor Package
- Flower Box
- Lap Siding
- Additional Windows
- Cupola
- Paint
